Re: Availability of Electric Service
Vance County Hub Site

Dear Mr. Litvin:

You have requested a statement from Progress Energy concerning availability of electric service for 20,000 to 25,000 kWh's per day in the Vance County Hub Site located off of interstate Hwy. 85 and Poplar Creek Road, Henderson, NC.

Progress Energy provides electric service to the hub site and three phase service is readily available. We will be pleased to supply electric service in accordance with our applicable rate schedules and service regulations.

When electric service is needed, we will be happy to discuss details of service, voltage, points of delivery, charges for service, date of delivery of service and other electric service arrangements.

We look forward to serving this project in the Henderson, Vance County area. Please feel free to contact me if there are questions regarding our service.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerial O. Proctor".
