Dear Mr. Litvin:

Pursuant to your request, once NCDOT rebuilds & strengthens 0.10 mile of Technology Lane between SR 1126 (Poplar Creek Road) to the existing end of Technology Lane and installs the turn lanes on SR 1126 (Poplar Creek Road) for the access point on SR 1126 for Technology Lane, the improvements will meet the design requirements to handle legal trucks size and weights for the subject site. The improvements are scheduled to be completed by June 15, 2012.

Additionally, NCDOT will add this road to the State Maintained System in the near future.
