Re: Certification Documentation
Granville and Warren Counties Hub Sites

In accordance with your recent communication, we have prepared the Certified Site Program Data forms using the format that you supplied to me. In this way, the Certified Site Program Data forms are hereby submitted for the Hub sites in Warren and Granville Counties.

I believe this information is the final document that is needed to recertify those two sites. If you have questions or need additional information, please contact me at your convenience.

Thank you for your advice and guidance.
